Virtual EMS Conference

November 11, 12, 13, 2021

As many of you have heard, APEMS decided to postpone the annual Samoset EMS conference this year because of the ongoing pandemic and the workforce difficulties. Instead, we have put together a 3-day virtual EMS conference, free of charge, for EMS providers in Maine. In many cases, we have set up multiple programs during each hour of each day. All sessions are 1-hour in length with a 30-minute break between sessions. For each program you wish to attend, click on the registration link by the program. Each program will have an administrator assigned in addition to the instructor to monitor the Q&A and take attendance at the beginning and end of each session. Attendees will be placed on the specific CEU roster for that lecture and uploaded in the ImageTrend licensing system. There will be an online evaluation form at the end of each program for participants to complete.

Any questions should be directed to Sally Taylor, staylor@apems.org or Rick Petrie, rpetrie@apems.org.

Thursday, November 11, 2021 – All programs earn 1 hour in the category listed

| Time | Topic | Instructor | CEU's | Registration Link |
